All others, except Everbearers.....	.40	1.40	9.00
Everbearers	1.00	3.75	25.00

Barnes' Self-Fertile—The best berry for home use; ripens over a long season, and does not need other varieties to fertilize same, and if other varieties are kept from these, they will produce choice berries for years. By far the best berry we know of. We planted some in October, in 1914, and in the spring of 1915 we picked on an average of sixty berries to the plant, choice berries.

## RHUBARB

Each	10	100	1000
Strong, 2-year Plants.....	\$.10	\$.90	\$7.00
Linnaeus, Victoria Giant.
